

INSTRUCTIONS FOR CLEANING AND ASSEMBLING TO ENSURE YOUR CUP FUNCTIONS CORRECTLY

1

- Un-screw the lid
- Pull out the valve

2

- Separate the 2 parts of the valve (soft & hard)

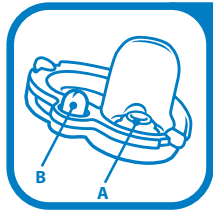

CLEAN ALL PARTS WITH WARM SOAPY WATER AND RINSE THOROUGHLY OR USE A DISHWASHER.

RE-ASSEMBLY

1

- Align the two parts and press together AS PER ILLUSTRATION

2

WARNING

- Ensure parts **A** and **B** of the soft side are pushed through the holes of the hard side. Ensure the cut **B** opens by squeezing before use.

3

- Place the valve back in the lid, and push until the sides lock into place
- Screw on lid
